Statement Explaining Compliance with CPNI Rules for 2009

ACS of Fairbanks, Inc. has the following practices and procedures in place to ensure compliance with the customer proprietary network information ("CPNI") rules of the Federal Communications Commission ("FCC"), 47 C.F.R. §§64.2001-2011, and Section 222 of the Communications Act of 1934, as amended (the "Act"), 47 U.S.C. §222.

- We have implemented safeguards to ensure that the status of a customer's CPNI approval (or absence of approval) is confirmed before CPNI is used in any marketing efforts. See 47 U.S.C. § 64.2009(a).
- We regularly train personnel regarding the permissible and impermissible uses of CPNI, have adopted written CPNI policies which are available to employees, and have supervisory and disciplinary processes in place to address any violations of the CPNI rules. See *id.* § 64.2009(b).
- We maintain records of each marketing campaign that makes use of customers' CPNI. Our records are sufficient to describe each campaign, identify the CPNI utilized, and record the instances in which CPNI is disclosed, provided, or made available to third parties for marketing purposes. See *id.* § 64.2009(c).
- We have established a supervisory review process to ensure compliance with CPNI rules in any outbound marketing campaign. Sales personnel must obtain supervisory approval for any proposed new outbound marketing campaign or efforts to obtain customer approval for use of CPNI. See *id.* § 64.2009(d).

- We have implemented systems and processes to establish customer passwords and properly authenticate customers who initiate telephone, online or in-store requests for CPNI prior to the release of any such data. See 47 CFR § 2010(a)-(e).
- We have established systems and processes to immediately notify customers whenever a password, customer response to a back-up means of authentication, online account, or address of record is created or changed, in accordance with the FCC's rules. See 47 CFR § 2010(f).
- We retain records of compliance for at least the minimum time periods specified in Part 64 of the FCC's rules.
